Subject: South Fork Figures

Deb,

I just spoke to Pat, he is going to reach out to BOEM now to see whether they have for an estimate. Please note that the 8,000 MW is a figure we came up with based on who has been working is R1 directly. BOEM may have a slightly different total MW number. We don't have the number of homes readily because we are not the experts and we lifted the Vineyard and South Fork estimates directly from two BOEM documents which are slightly different. We don't feel comfortable scaling up and so Pat is reaching out now.

We do have the South Fork numbers in the press release which Eric and Pat just sent to Beth. Do you want to send her those numbers for now and say we are reaching out to BOEM to see if they have a total number? Please advise. Thanks.

Lynne
